HOW TO REMEMBER USERNAMES/PASSWORDS AND OTHER FORM DATA

Internet Explorer can remember certain details entered into online forms, such as usernames and passwords and other data entered into online forms. To turn this option on, follow the instructions below.
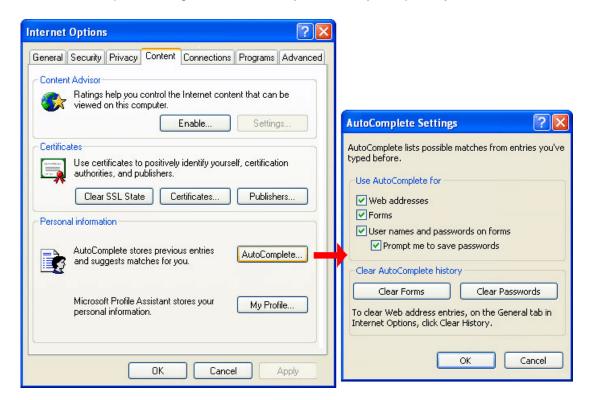

Note: These illustrations show Internet Explorer 6 in Windows XP. Other versions may vary slightly.

Go to the **Tools** menu and select **Internet Options**.

A window will open like the one below. Click the **Content tab**, then click the **AutoComplete button**.

In the AutoComplete Settings window, **check (or uncheck)** the options you would like to use.
